Enrolment drive

All children deserve the best start in life. Unfortunately, for many, this isn't the reality. The children living in urban slums are highly deprived. Only intensive support and education can prevent anti-social behaviour amongst children. However educational deprivation of slum children in particular and poor urban children in specific is often camouflaged by aggregate statistics on urban areas. Understanding the existing milieu and under RTE of our country, Sahyog Care through the consistent efforts of its school team, has been successful in mainstreaming 700 children in MCD schools. These children are now performing well in their respective school

Remedial Coaching

And also working on dropout rate due to lack of adequate reading and writing schools by enhancing reading and writing skill of the children. Now these 2500 children who have attended remedial coaching centres are confident enough to compete with the world.
