

COMPUTER TRAINING

In the modern workplace, computer skills are an incredibly valuable addition to any employee's personal portfolio. Nowadays, the computer is being used almost in every field and it has influenced our lives completely. Knowing computers is a pre-requisite for various jobs today. So, Sahyog Care is providing computer training to the youth in various fields so that they become employable like-

- Basic training
- Advance training

Apart from Basic and Advance Training we have also trained them in hardware and software applications.

The courses that we offer are job oriented and will make it easy for our students in finding good jobs. We have trained many students till now and also provide placement opportunities to them.

BEAUTICIAN

The beauty industry is a growing business in today's world, so Sahyog care gives training to young girls and women in the field of beauty services. Being trained as a beautician will open various job opportunities for the beneficiaries.

We have encouraged these women to start their own parlors or provide door-to-door services or become free lancers. We have also done a project in collaboration with Godrej known as beautypreneur. There are many women today who are placed through our organization and are living a respectful life. We have success stories of many women who have benefitted from our course.

Indira Lal, one of our students was sent to for advance training in beauty services. It was a great opportunity for her as she had never travelled outside the city alone and now she was going for getting

advance level training. Now she has a very successful career and running her own parlor.

STITCHING

Job oriented training is very important in growing economies like India where there is huge shortage of skilled manpower in every sector. There are many women in our country who are not educated enough to find a job in any sector. So, we at Sahyog Care train such women in stitching so that these women become economically independent and can support their husband financially. After training, we help these women in getting placed in some boutique or encourage them to start working on their own. Today, they live a dignified life and are earning very good salaries.

DIGITAL LITERACY

With the increased importance of technology in society, digital literacy is gaining recognition as the most valuable tool for lifelong learning. Essentially, as citizens of a global society, the influence of social media, technology, and online resources is massive. So there's a need for every citizen to be digitally literate to cope up with the changing world. Sahyog has a digital literacy program wherein we have trained people across Delhi and Himachal Pradesh in association with Nasscom and many people in collaboration with AID ET ACTION. Under this program we teach beneficiaries basic things like online banking, ticket booking, Aadhar card linking, online shopping and recharge and paying bills only. Now these people don't have to be dependent on anyone for these basic activities, they can do it on their own.

DATA ENTRY

The scope of data entry in India is enormous considering the fact that India is a preferred destination for it and its related business. Data

plays a fundamental role in the IT sector and is a critical area that demands expertise. So, sahyog is providing training for data entry to the youth to make them employable in our centers at nithari, trilok puri, mangol puri and ashok nagar. And since data entry personnel are required in every business, this course opens various doors of job opportunity for the youth.

BPO

India has emerged as a hot destination for BPO work in recent years. So sahyog in collaboration with HCL is training the youth to work in the BPO sector. We train them to speak in English proficiently, to receive and make calls, social etiquettes and customer dealing. We also work on developing their overall personality. This course has enabled all the beneficiaries to find jobs in reputed companies with good salaries.

TALLY

In today's era, maintaining business sale purchase records is very important. For maintain sale-purchase records, mostly companies' use tally software. In India also, most of the companies' use Tally. So, working knowledge of tally is very important. There is a huge demand of tally now. We at SAHYOG train the youth in Tally to make them employable by providing them the relevant skills. Our centers of Nithari (Noida), Trilokpuri, Ashok Nagar and Mangolpuri equip the students with knowledge of Tally.

ELECTRICIAN

Electricity is very important to modern day life and what would we do without all those important electricians who maintain this on our behalf. At Sahyog we gave the opportunity to youth to learn this job oriented course. We trained and taught them how to fit, test and repair electrical circuits and wirings found in houses and business.

Our centre of Kishanganj provided this course. This course was being organized in association with TATA.

RETAIL MANAGEMENT

Sahyog in collaboration with HCL has also started a retail management course in its Nithari, Trilokpuri and Ashok Nagar centre. Retail management includes all the steps required to bring the customers into the store and fulfill their buying needs. We train the youth in all aspects of managing the retail business like how to represent oneself, speaking in English proficiently, customer dealing etc. This 6 months course ensures a holistic development of person and make them employable in retail organizations like big bazaar, malls etc.
